Social skills

Due to my work experiences, I am able to deal with many different work situations: e.g. workshop production and shipyard, different types of suppliers and customers, and Register Surveyors. I have contributed to the organisation of many major projects, which has improved my skills in terms of working as a team with colleagues from other departments.

Organisational skills

I have improved my project coordination abilities, in terms of considering all different project phases and the technical issues involved in developing prototypes. I am not only able to deal with technical problems, but am also to complete the drafting of dimension and calculation reports, while always maintaining contacts with customers and Register Surveyors. I am familiar with the following steps related to quality: obtaining certification, drafting of final documents, as well as use and maintenance manuals. I have also participated in the final stage, i.e. product delivery, including testing.

Technical Skills

Due to my various kind of working experience, I am accustomed to always keeping in mind the main registers: e.g. Lloyd Register, RINA, ABS, DNV. With respect to technical verifications I used UNI, EN, ISO, ASTM, API

I know how to work in a step by step manner: from initial planning, to choosing supplies, to visiting workshops for testing and functional testing, right up to delivery of final product.

Other Skills

Hobbies : photography, model building and music.

Driving Licence

Type B
