

**MASTER IN ADVANCED SKILLS IN SAFETY, ENVIRONMENT AND SECURITY AT SEA: MAY 2018 – FINAL PLAN**

Hours dedicated to industry testimonials

Timetable	MAY 2018						
	05/05/2018	07/05/2018	08/05/2018	09/05/2018	10/05/2018	11/05/2018	12/05/2018
09:00-09:45	5.4 Safe Return to Port-part II – CANGELOSI	-	-	-	-	-	8.1 The waste management on ships - BEVILACQUA
09:45-10:30	5.4 Safe Return to Port-part II – CANGELOSI	-	-	-	-	-	8.1 The waste management on ships - BEVILACQUA
10:40-11:25	5.4 Safe Return to Port-part II – CANGELOSI	-	-	-	-	-	8.1 The waste management on ships - BEVILACQUA
11:25-12:10	5.4 Safe Return to Port-part II – CANGELOSI	-	-	-	-	-	11.1 Projects, Organizations and Processes of Project Management - POZZETTO
12:10-12:55	8.1 The waste management on ships - BEVILACQUA	-	-	-	-	-	11.1 Projects, Organizations and Processes of Project Management - POZZETTO
14:00-14:45	8.1 The waste management on ships - BEVILACQUA	-	-	-	-	-	11.1 Projects, Organizations and Processes of Project Management - POZZETTO
14:45-15:30	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	-	-	-	-	-	11.1 Projects, Organizations and Processes of Project Management - POZZETTO
15:30-16:15	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	-	-	-	-	-	11.1 Projects, Organizations and Processes of Project Management - POZZETTO
15:40-16:25	-	-	-	-	-	-	-
16:25-17:10	-	-	-	-	-	-	-
16:30-17:15	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	-	-	-	-	-	11.1 Projects, Organizations and Processes of Project Management - POZZETTO
17:15-18:00	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	-	-	-	-	-	11.1 Projects, Organizations and Processes of Project Management - POZZETTO
17:20-18:05	-	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring - CABRINI	5.4 Safe Return to Port-part II – INCANDELA	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - DIEZ	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI	-
18:05-18:50	-	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring - CABRINI	5.4 Safe Return to Port-part II – INCANDELA	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - DIEZ	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI	-
19:00-19:45	-	8.1 The waste management on ships - BEVILACQUA	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - DIEZ	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI	-
19:45-20:30	-	8.1 The waste management on ships - BEVILACQUA	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	7.2 Simulation-based Design Optimization considering environmental and energy efficiency requirements-LEOTARDI	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - DIEZ	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI	-

**MASTER IN ADVANCED SKILLS IN SAFETY, ENVIRONMENT AND SECURITY AT SEA: MAY 2018 – FINAL PLAN**

Timetable	MAY 2018					
	14/05/2018	15/05/2018	16/05/2018	17/05/2018	18/05/2018	19/05/2018
09:00-09:45	-	-	-	-	-	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI
09:45-10:30	-	-	-	-	-	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI
10:40-11:25	-	-	-	-	-	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI
11:25-12:10	-	-	-	-	-	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI
12:10-12:55	-	-	-	-	-	11.1 Projects, Organizations and Processes of Project Management - POZZETTO
14:00-14:45	-	-	-	-	-	11.2 Managing Integration and Content of Project - POZZETTO
14:45-15:30	-	-	-	-	-	11.2 Managing Integration and Content of Project - POZZETTO
15:30-16:15	-	-	-	-	-	11.2 Managing Integration and Content of Project - POZZETTO
15:40-16:25	--	-	-	-	5.4 Safe Return to Port-part II – INCANDELA	-
16:25-17:10	-	-	-	-	5.4 Safe Return to Port-part II – INCANDELA	-
16:30-17:15	-	-	-	-	-	11.2 Managing Integration and Content of Project - POZZETTO
17:15-18:00	-	-	-	-	-	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring – CAMERLENGHI
17:20-18:05	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring - CERAMICOLA	5.3 Failure Mode and Effect Analysis - DREOSSI	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring – MELAKU CANU	5.4 Safe Return to Port-part II –CANGELOSI	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI	-
18:05-18:50	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring - CABRINI	5.3 Failure Mode and Effect Analysis - DREOSSI	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring – MELAKU CANU	5.4 Safe Return to Port-part II –CANGELOSI	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI	-
19:00-19:45	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring - CABRINI	5.3 Failure Mode and Effect Analysis - DREOSSI	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring – MELAKU CANU	5.4 Safe Return to Port-part II –CANGELOSI	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI	-
19:45-20:30	8.1 The waste management on ships - BEVILACQUA	5.3 Failure Mode and Effect Analysis - DREOSSI	8.3 Building the blue growth knowledge potential: from marine data management to ecological modelling and hazards monitoring – MELAKU CANU	5.4 Safe Return to Port-part II –CANGELOSI	7.3 Deterministic and Stochastic Simulation-based Design Optimization Techniques and Applications - part I - LEOTARDI	-
